GEL
THE GEL FOR JOINTS AND MUSCLES

IS NOW GREEN!!

JOINT PAIN?

NEW PACKAGING

Your choice to fight joint and muscle pain: ATROFLEX™ ozonised olive oil

Why ozonised olive oil (O₃) is your
best bet of treatment for joint and
muscle pain?

- Extra virgin ozonised olive oil.
- Eco-friendly active ingredient.
- Non-invasive, localised application.
- Suitable for continuous & long term application.
- Safe to use.
- Can complement oral supplement or painkillers.

BUT NOT ALL OZONISED OLIVE OIL IS CREATED EQUALLY.

Characteristics	Ozonised Olive Oil in ATROFLEX™ GEL	Explanation
Production process temperature	9°C to 12°C	Low temperature avoids degradation and denaturation of oil. Degradation and denaturation of oils often leads to production of unwanted by products that may be harmful to our body.
Manufacturing Process	Patented manufacturing process	Production process of ozonised olive oil with better and consistent quality.
Ozone saturation or peroxide value	High PV (peroxide value) of 600 Meq O ₂ / kg	Higher PV means more oxygen molecules are saturated into the olive oil. Most ozonised olive oil only holds up to 250 Meq O ₂ / kg of PV value due to the limitation in manufacturing process (more harmful by-products may be traced to achieve higher PV values).
Raw material	100% natural from Spain (the biggest producer of olive oil in the world)	Premium quality olive oil
Green technology	Uses certified organic raw material with Eco-Cert	Product is Eco-friendly and sustainable.
Halal	Halal certified	Halal means that the product is made from allowed ingredients and best hygiene practices according to Muslim's belief.

HERE'S WHY ATROFLEX™ GEL IS YOUR BEST CHOICE.

ATROFLEX™ GEL contains higher oxygen concentration than most products to ensure optimal efficacy and co-formulated with jojoba oil to improve absorption rate.

ATROFLEX™ GEL is registered as a medical device and is indicated to reduce pain associated with knees, back, and other joints and muscles and used in many rehabilitation centres.

ATROFLEX™ GEL's ozonised olive oil is produced with a patented process which makes it lighter, more stable and improved skin penetration.

ATROFLEX™ GEL gives slight cooling sensation on the skin while the active ingredient penetrate the targeted area.

ATROFLEX™ GEL is registered with Medical Device Authority (MDA No: GA4424120-47522) under act 737.
